SECOND DRIVERS

As the summer approaches we want to remind you that the drivers and second drivers (as well as children) must always be booked in advance, at the time of booking a vehicle. We ask you to remind your drivers of this because we cannot guarantee a cabin berth to drivers who are not booked in advance. Tickets for accompanying passengers are booked through the passenger booking service.

CHANGES TO WAITING LIST

Units may still be booked on waiting list, but in future the waiting list number will be given upon the driver reporting to the check-in office. The current practice continues on the Helsinki-Tallinn-route.
