

VIKING LINE CARGO

13.4.2017

April greetings!

At the beginning of April, Viking Line signed a conditional shipbuilding contract with Xiamen Shipbuilding Industry Co. concerning a new ship for the Turku – Åland Islands – Stockholm -route with planned delivery in 2020.

Viking FSTR has started to operate on the Helsinki – Tallinn -route. The operation will continue until the end of October.

The recruitment process for finding a new Sales Manager is going well! We have received a plenty of good applications and will continue with personal interviews. We are planning to have the new person onboard with us by the end on the summer.

From the customer survey

During February and March, we conducted a customer survey in collaboration with Gaudia Tutkimus Oy. The survey was conducted by random sampling.

The survey gave us a lot of good feedback as well as some relevant development proposals.

The survey respondents described us with the words "positive, flexible, good" and that is the way we want to continue. Many of the respondents asked for better digital services and we are working on that at the moment.

Viking Line Cargo wishes you a Happy Easter!

Our vessels are operating normally and our freight check-ins are serving you according to normal opening hours during Easter.

Our freight booking offices in Turku and Tallinn are closed on Friday 14, April 2017. The office in Tallinn will be open again on Monday 17, April 2017 and in Turku on Tuesday 18, April 2017.
