3. Office hours for summer

1. Reefers aboard on the car deck

Due to safety reasons, it is permitted to operate compressor engines on board only if they are attached to the power distribution system of the vessel. Electric connection for reefers should be booked when making the freight booking.

All the engines must be in good condition. We are not responsible for any damages of the cargo caused by the malfunction of the reefers.

2. Summer check-list

- ✓ It is extremely important for all cargo units to arrive at the port at least one hour before the ship's scheduled departure time.
- ✓ We kindly ask you to inform us of your vehicle's height, length and weight when booking a trip.
- ✓ Units with a width exceeding 2.60 m must be booked as overwide in advance.
- ✓ Please note that vehicle mirrors must, on request, be folded back on the car deck.
- ✓ All drivers, including second ones, must be booked in advance.

3. Reminder: office hours for summer

Freight booking in Turku will be open as follows:

Mon-Fri 8:00-18:00 (local time)

tel. +358 2 333 1446 | cargo.booking@vikingline.com

Up to date opening hours for **freight check-in**:
